

Topics and Niche for the Podcast

This resource is recommended to be used alongside Chapter 2. To kick off your podcast, let's find a topic for your podcast. We have some suggestions of what common podcast topics are, but feel free to choose any topic of your choice even if it's not listed.

Arts	Entertainment	Pop Culture	Technology	Science	Economy
Human Rights	Identity	History	Crime	Personal Narratives	Education
Leisure	News	Religion	Politics	Comedy	Fiction

With this table of topics, pick 5 out of the list of topics. Next, narrow down those 5 topics to 3 topics. And then lastly, narrow it down to 2 topics. Now, with these 2 topics, do you like one more than the other? Or is there a way

to talk about both topics? Having 2 topics for your podcast is fine, but there must be a tangible connection between the 2 topics.
